This balm is wonderful! Not only does it soothe irritated or dry skin, it also smells beautiful. In fact I am becoming addicted to using this balm and cannot resist re applying to my hands... especially at night as I find the scent very relaxing. I only ordered the trial size but will definitely get the full size as I think this would be great for my facial skin during the winter months and perfect all year round care for hands, face and body.

I read about this new beauty balm on [www.marmaladya.com](http://www.marmaladya.com) and thought I'd give it a try since it got such a good review. What can I say?! I am now a thorough Maia convert, this balm is so luxurious and such a delight to use. A little goes a long way and it has so many uses, face, hands, even a lush treatment for the feet. I can't praise it highly enough.
